

Define your mood/voice

Keywords: Authentic, Enthusiastic, Friendly, Colorful

I choose friendly voice because it's offering confidential and empathetic communication. I select enthusiastic because I passion to learn UI/UX Design more. Also, I prefer authentic voice due to it provide credibility and engage with my audiences. I think the colorful theme is more charming and provocative.

This is the style of my future portfolio based on my preferred voice and mood. I use Barlow, Poppins and Montserrat for Typography because meanwhile they are sans-serif and eligible to write they look Modern and Casual than serif fonts. I used Poppins for titles, Barlow for texts and Montserrat for buttons.
